

TERMS OF USE

By using InnoSurvey™ you accept these Terms of Use.

INNOSURVEY AND INNOSURVEY DATA

InnoSurvey™ is a web-based tool used to measure a company's innovative capability by means of comparing certain predefined key abilities of a company with data from a predefined selection of other anonymous companies found in the InnoSurvey™ database (the "Service").

InnoSurvey™ and the InnoSurvey™ database are owned by us, the Swedish company Innovation 360 Group AB ("IGAB").

All the information and data disclosed by you and entered into InnoSurvey™ ("InnoSurvey Data") will be aggregated with already existing data in the InnoSurvey™ database. The InnoSurvey Data will become part of the InnoSurvey™ database and as such will also comprise part of the anonymous reference data used in future polls made with InnoSurvey™.

Your InnoSurvey Data is accessible only by the specified company/person who entered the InnoSurvey Data into InnoSurvey™ (which in this case would be You) and by administrative employees at IGAB.

You hereby grant IGAB the right to aggregate Your entered InnoSurvey Data with the data already existing in the InnoSurvey™ database and a perpetual, irrevocable and transferable right to use and access your InnoSurvey Data in accordance with what is stated above.

The administrative employees at IGAB who have access to the InnoSurvey Data are made aware of and observe all the obligations under these Terms of Use.

For other users of InnoSurvey™, other than You and IGAB, InnoSurvey Data will only be accessible and presented as an undefined and anonymous part of aggregated data.

Except for what is stated in these Terms of Use, InnoSurvey Data will not be disclosed to any third party.

IGAB has implemented technical and organizational security measures to safeguard stored data against inadvertent or deliberate manipulation, loss or destruction and against access by unauthorized persons. Our security measures are continuously improved in line with technological progress in the security field. Confidential data transmitted via the Internet to the InnoSurvey™ platform are protected by Transport Layer Security (TLS) 1.2 with an encryption of at least 128-bits. TLS encryption protects all user data transmission details as they are passed back and forth between the browser and the server. Once the user data is submitted, it resides on a server that is secured both physically and electronically.
